LAB[au] invited by the dance festival "Danse en vol", Brussels [be] with the dance performance "Man in e.Space".

"Danse en Vol" is a biannual event initiated in 1997 which offers a privileged context to discover promising choreographic productions. The festival proposes ten works in progress or finished works during the month of October. One of them will focus more specifically to the youth audience, and two others explore the use of new technologies.

About the performance
